Status Update
Comet demonstrates resilience in managing cyclical downturn

Sharp downturn in 3D NAND semiconductor market

Corrective measures launched and successfully completed

- Adjustment of production capacity
- Divestment of ebeam systems business in US
- Earnings improvement program at IXS to deliver effects in 2019

FY 2018

- Solid net sales in CHF of 436.4m almost at prior-year level
- Underlying EBITDA margin of 11.1%*
- Strong investment in future growth
  - R&D: 12% of sales
  - CAPEX**: 4% of sales
- Underlying net income of 24.3m*
  - Underlying EPS of CHF 3.13

* Underlying means excluding one-off costs of CHF 10.5m on EBITDA and CHF 12.0 m on net income level for corrective measures

** In manufacturing equipment, excl. new building
Comet is facing a cyclical downturn in semiconductor equipment market. Underlying growth drivers for the future are intact.

Data economy is growing and artificial intelligence will accelerate the demand for semiconductors and thus for Comet RF power solutions.

Source: Applied Materials model based on forecasts published by Cisco, Intel, Western Digital.
Status Update

As a global technology leader, Comet offers an innovative technology platform to enable key global trends.

- Industry 4.0
- Security
- Inline processes
- 3-D manufacturing
- Data economy
- Artificial intelligence
- Internet of things
- Food safety
- CO2 footprint reduction
Review of 2018
Divisions
PCT: Solid performance despite cyclical downturn of the semiconductor market in H2

Sales at previous year’s level in local currencies
- H2 28% down vs. record high H1 due to slowdown in demand for 3D NAND memory chips and postponements of WFE projects in H2
- Rapid adjustment of capacity in all locations; preparations for upturn
- Smart lab for automated testing of new RF generators put into operation

EBITDA margin at 19.7%
- Unfavorable product mix
- Higher investment in strategic R&D projects to develop new RF system solution for growth after 2020
Status Update: PCT

Development of modular, flexible and highly precise generator on plan to address new market from 2020 onwards

Future requirements in semi:
- Advanced RF control systems
- Higher measurement accuracy
- Increased repeatability

Integrated RF systems from COMET will provide:
- Data-driven process analysis and optimization
- New features for advanced RF plasma process control
- Flexible and quickly customizable RF solutions

Generator market size
~CHF 700 m

Plasma chamber

Plasma (modifies wafer surface, e.g. deposition or etch)

Comet "matchbox" (impedance matching network) with vacuum capacitor used to transform the RF impedance of the chamber

Comet RF generator used to create the power for the plasma chamber

Digital high speed data exchange
IXM: Pronounced margin improvement; expansion of position in core market of non-destructive testing

1.3% sales growth in local currencies due to

- Increasing sales of robust, portable Smart EVO X-ray solutions for pipeline inspection in the US more than compensated for weak security market
- Investments in the innovative iVario generator family started to pay off

24.7% EBITDA margin (up 1.9 pps)

- Strong growth in portable products
- Despite one-off costs for the expansion of the plant in Flamatt and productivity losses in prefabrication as a result of the slowdown in business at individual customers
Status Update: IXM

Addressing market trends based on strong modular product portfolio and new developments

Success based on 3 product segments

- Portable x-ray
- XRS components
- iVario / iXRS

Addressing customer needs and trends

Based on continued mass customization, new products/upgrades and customer projects planned for new applications in:

- Inline CT
- Security
- 3D print
- Miniaturization

Values:

- 2017
- 2018
- 2019
- 2020
Review of FY 2018 - Group and Divisions

IXS: Product portfolio renewal taking effect; measures to improve earnings completed

4.7% sales decline in local currencies compared to previous year
- New and enhanced products already delivering results after a weak H1
  - Mainly in electronics, tire inspection as well as science & new materials
  - Decrease in wheels and casting market for which product renewals were still in progress
- Strong backlog and incoming orders for new products

Adjusted EBITDA of CHF 2.4m
- One-time costs for profit improvement program that will have impact in 2019
- Strong investment in product renewal
Status Update: IXS
Portfolio renewal on track, first positive effects, focused pipeline for 2019

New products/features in the pipeline for 2019 addressing needs in:

- Electronics
- Automotive
- Aerospace
Review of FY 2018 - Group and Divisions

EBT: Realignment for more focus and lower cost base in 2019

33% sales decline in local currencies
- Prior year’s investments in product portfolio of large ebeam systems did not meet expectations
- Divestment of loss-making manufacturer of large systems in US completed in H2
- Focusing on the promising OEM components and modules business (with a new and attractive financial footing), reducing current losses, raising operational excellence and lowering costs

EBITDA at CHF -20.2m (adjusted at CHF -13.6m)
- CHF14.5m of this related to the now-divested ebeam systems business in the US
- Continued high investments in strategic applications
Status Update: EBT

Progress with OEM modules and component business projects

**Milestone 1.5 Bio**
Liquid food packages produced with ebeam

**Technical launch of Laatu™**
Approved for spice application by regulators

**Primary test phase**
with Bell Food Group completed successfully

**Prototype**
Negotiation with OEM partners to build prototype for high-volume production

Negotiation with leading hatchery integrators to start high-volume production test phase

**Start of commercialization**

**Latuu™ available to customers**

Sterilization of liquid food packaging (Tetra Pak)
Inactivation of dry food (Bühler)
Treatment of hatching eggs

Ongoing business with Tetra Pak

* All 2017 figures shown throughout the presentation are after IFRS 15 restatement

- Increased backlog, mainly at IXS
- Lower gross profit margin, influenced by lower sales volumes and one-time effects
- Total functional costs impacted by:
  - one-time costs of CHF 14m and
  - investments in ongoing business
- Corrective actions for earnings improvement completed:
  - Adjustment of production capacity
  - Streamlining of x-ray systems business
  - Divestiture of the ebeam systems manufacturer in Davenport
Solid sales performance in a difficult environment

Volume effect in local currencies
CHF -9.9m (-2.2%)

Positive currency effect (+0.6%)

* USD -1.6; EUR +4.1; CNY +0.4
Financial Results

**EBITDA margin before one-time costs at 11.1%**

1) The fx impact (USD -0.6%, EUR +3.9%) and
2) the impacts of both EBS (impairment of fixed assets & divestiture costs) and IXS (restructuring) are deducted from the reported 2018 FY results (in total, EBS and IXS impacted the EBITDA margin by 2.4%)
Financial Results

Net income before one-time effects at CHF 24.3m

- Operating income (EBIT) of CHF 18.0m (PY CHF 50.8m) impacted by one-time effects of CHF 16.6m
- Net financing expenses CHF 2.8m (PY CHF 0.9m)
- Income tax expense CHF 2.9m (PY CHF 14.5m)

EPS: CHF 4.56

Comet Group | FY Results 2018 | March 14, 2019
Limited foreign currency translation losses

Net financing items amounted to an expense of CHF 2.8m (PY CHF 0.9m), reflecting the following factors:

- **Interest expenses** decreased to CHF 0.8m (PY CHF 1.3m) due to mortgage payback in 2017 & higher capitalization of bond interest related to the new building in Flamatt
- The net **currency translation loss** recorded in the income statement was CHF 2.0m (PY gain of CHF 0.4m)
  - Almost naturally hedged for most currencies other than the USD
  - Net exposure in USD partly hedged by forward exchange contracts

Currency impact on balance sheet:

- A currency translation loss of CHF 1.7m was directly recorded in equity (related to net investments in foreign entities)
2018 normalized tax rate at 24%

- Reported effective tax rate of 18.9% includes:
  - 4.5 pps recognition and **use of tax loss carry-forwards** not recognized in prior years
  - 0.6 pps other impacts as described below

- Actual income tax reported totaled CHF 2.9m (PY CHF 14.5m), comprising:
  - Items with a positive impact on the effective tax rate such as:
    - Partial **tax exemption** by the Canton of Fribourg: CHF 0.5m
    - Other impacts: CHF 0.2m
  - Items with an adverse impact on effective tax rate such as:
    - **Non-tax-deductible expense**: CHF 0.4m (down from PY CHF 0.7m)
    - Other impacts: CHF 0.2m (down from PY CHF 0.8m)

- For 2019 the effective tax rate is expected to increase to 28% (less favorable mix of earnings)
Financial Results

Negative free cash flow driven by low profitability and significant investments

- CHF provided by operating activities: CHF 22.5m
- CHF used in investing activities: CHF -26.9m
- Free cash flow: CHF -4.4m
- CHF used & provided by financing activities: CHF -12.6m

a) Cash as of Jan. 1, 2018
b) Net income in 2018
c) Other non-cash income/expenses incl. depreciation/amortization
d) Increase in NWC
e) Income tax and taxes paid
f) Net investment in new building, equipment and intangible assets
g) Repayment of debt
h) Interest paid and distribution to shareholders
i) Foreign currency translation loss
j) Cash as of Dec. 31, 2018

</tbody>
</table>

- Decrease in current assets related to (i) lower inventories and (ii) cash-out for investment in new building (with a corresponding increase in non-current assets; despite Davenport divestiture)
- Decrease in liabilities mainly related to lower trade and other payables
- Strong equity ratio of 54.4%
Initiatives identified to optimize working capital

Working capital ratios

- Total net **working capital** increased by CHF 3.1m, despite lower inventories, driven by a slow-down in business activities in H2 (leading to lower prepayments by customers and a lower trade payables balance).

- Monthly average net working capital in % of net sales was 24.5% (PY 21.7%), reflecting the change in inventory level over the year. Optimization measures were initiated.

- **Inventories decreased** to CHF 91.1m (PY CHF 102.8m), caused mainly by the disposal of ebeam systems business in Davenport. DIO (monthly average days inventory outstanding) increased by 10 days to 90 days (PY 80 days) driven by lower sales.

- **Increase in trade receivables** (net of prepayments by customers) to CHF 33.4m (PY CHF 26.7m). DSO (monthly average days sales outstanding) constant at a low 20 days (PY 20 days)

* Net working capital represents trade receivables, contract liabilities, inventories, trade payables, and sales commissions.
Non-current assets influenced by EBS divestiture and capital expenditures for capacity expansion in Flamatt

Non-current assets increased by CHF 7.2m or 4.7%

- Property, plant and equipment and intangible assets increased by CHF 7.7m
  - Items that increased PPE and intangible assets:
    - Capital expenditure in new building in Flamatt amounted to CHF 14.3m
    - Capital expenditure – excluding new building in Flamatt – as a mixture of replacement and capacity increase totaled CHF 16.4m, disposals were CHF 1.9m
  - Items that decreased PPE and intangible assets:
    - Depreciation of non-current assets totaled CHF 8.5m; amortization: CHF 5.3m
    - Impairment of PPE totaled CHF 0.7m and impairment of intangible assets totaled CHF 5.4m (total EBS impairment of CHF 6.1m)
    - Negative translation effects totaled CHF 1.2m

- Net deferred tax assets increased to CHF 7.1m (PY CHF 6.4m) as a result of the recognition of tax loss carryforwards
Financial Results

Leverage ratio (net debt to EBITDA) at a low level of 0.7

- Ongoing investments and a profitability reduction lead to an expected increase in leverage ratio to 0.7
- Planned investments in future businesses can be financed based upon a low net debt and a normalized EBITDA
Distribution to shareholders of CHF 1.20 per share

* The Board of Directors proposes to distribute CHF 1.00 per share from distributable paid-in capital and CHF 0.20 per share as a regular dividend (pay-out ratio reaches 38% based upon adjusted EPS of CHF 3.13)
Outlook
Comet Group is entering 2019 on a sound basis

- **Strong balance sheet & low net debt**
- **Completion of corrective measures at IXS and EBT – impact in 2019**
- **Non-recurring expenses (CHF 10.5m) and non-recurring losses from divested business (CHF 8m) in EBITDA vs. 2018**
- **Strong technology platform; underlying drivers of business intact**
Outlook

Comet group is well positioned to address attractive market potential.

- CHF 1000m
- CHF 280m
- CHF 760m

- Core/ existing applications
- Future potential
- Addressable market
- Current market share
