Review of FY 2017 - Group and Business Segments
PCT delivers the fifth consecutive year of record results

53.0% sales growth in local currencies
- More than proportional growth with high-end RF solutions based on equipment of new chip fabrication plants with US customers
- Increased business in China
- Successful sales ramp thanks to strong supplier network and maximum possible expansion of manufacturing capacity

26.5% EBITDA margin (up 4% points)
- High sales volume realized within its existing production capacity
- Cost savings in the supply chain made up for investments
  - in expansion of production infrastructure in Shanghai and San José and
  - in product innovation
Strong partnerships and innovation are success factors.

Investment to be accelerated.

- Awards for innovation and partnership
- Successful start of "cito Plus" sales
- Work on new RF power platform to be launched
Customers are waiting for the new RF generator

“We are highly interested in the new RF power generator to replace the old ones in our fabs.” Asian Customer

Review of FY 2017 - Group and Business Segments

IXS: Expansion of market position, high investment in renewal of product portfolio

12.4% sales growth in local currencies
- Mainly with large computed tomography (CT) systems
  - in the automotive industry
  - in the refocused “science & new materials” segment
- Market position in China strengthened; successful expansion in the Japanese and Southeast Asian market

6.1% EBITDA margin vs. 9.4% in the previous year
- Higher-than-average expenses for product portfolio renewal
- Investment in metrology as new application
- Investment in market presence in certain countries
Sharpened strategic focus as solution provider for Industry 4.0 applications

Launch of high-performance CT inspection systems
- Cougar & Cheetah Evo

Further investment in portfolio innovation
Successful launch and first sales of FF Metrology systems
IXM: Profitable growth in all markets and regions

12.5% sales growth in local currencies in all markets and regions
- 6% growth in NDT core business
- 45% growth in the security market with highly reliable x-ray sources that are tailored to the various specific needs

22.8% EBITDA margin (2016: 23.7%)
- Higher volume and productivity gains were offset by
  - currency impacts and
  - a negative one time effect from the change-over of pension plans in CH
Launch of iVario

IoT capable, for a broad range of applications
For further growth in the core markets of non-destructive testing and security
EBT: Development of new applications; high costs in systems business weigh on bottom line

73.8% increase in sales in local currencies based on

- Increased modules business (rollout Tetra Pak)
- High backlog of orders from the prior year in the systems business that were now filled
- Rise in sales of EB Labs

EBITDA decreased to a negative CHF 16.2m (2016: neg. CHF 9.1m)

- Investment in new applications, e.g. demonstrators (EBE)
- Renovation of product portfolio, professionalization of processes in systems business to address increased competition (EBS)
Further investment in new applications in partnership with Uteco, Bühler and Tetra Pak

- Launch of ebeam-based digital printing machine, GAIA
- Field tests for the inactivation of dry foods successful, substantiating the effectiveness of ebeam
- Updated strategy to integrate ebeam in new product generation will lead to a delay in sales revenue; Tetra Pak fully committed
ebeam systems redesigned and standardized to address competitive market situation
Treatment of hatching eggs: a new application in partnership with Bell Food Group

Demonstrator built, field tests in 2018

One-time impacts:
1. Positive impact due to reduction of the conversion rate
2. Negative impact due to pension plan change
3. Negative impact related to a non tax deductible trade compliance incident and the DTA write-off related to the US Tax Cut and Job Act
Increase of 50% in economic profit means further growth in value for shareholders

- Economic profit of CHF 16.2m realized in 2017, equaling a return on capital employed of 16.2% (vs. cost of capital at 9%)
- The increase was mainly driven by the strong profitable sales growth of PCT
Financial Results

Strong increase in net income driven by profitable sales growth

- Operating income: CHF 50.9m (PY CHF 36.5m)
- Net financing expenses: CHF 0.9m (PY CHF 0.4m)
- Income tax expense: CHF 14.6m (PY CHF 8.8m)

EPS: CHF 3.53

CHF 4.58
Foreign exchange gains due to weaker CHF

Net financing items amounted to an expense of CHF 0.9m (PY CHF 0.4m), reflecting the following factors:

- Interest expenses decreased to CHF 1.3m (PY CHF 1.5m) due to mortgage payback
- The net currency translation gain recorded in the income statement was CHF 0.4m (PY gain of CHF 1.1m)
  - Almost naturally hedged for most currencies other than the USD
  - Net exposure in USD partly hedged by forward exchange contracts

Currency impact on balance sheet:

- A currency translation gain of CHF 3.0m was directly recorded in equity
  (related to net investments in foreign entities)
2017 normalized effective tax rate at 25%

- Reported effective tax rate of 29.1% includes one-off impacts of
  - 3.0% points US Tax Cuts & Jobs Act (revaluation loss on deferred tax assets of CHF 1.5m)
  - 1.1% points non-tax-deductible expense (US trade compliance cost)

- Actual income tax reported totaled CHF 14.5m comprising
  - items with positive impact on the effective tax rate such as
    - Tax credits for R&D and domestic manufacturing: CHF 0.8m
    - Partial tax exemption by the Canton of Fribourg: CHF 1.6m
  - items with an adverse impact on effective tax rate such as
    - Revaluation loss on deferred tax items: CHF 1.5m (US Tax Cuts & Jobs Act)
    - Non-tax-deductible expense: CHF 0.7m (up from PY CHF 0.1m)
    - Other impacts: CHF 0.8m (up from PY CHF 0.4m)

- The expected effective tax rate for 2018 is approx. 24%

Financial Results

Strong operating KPIs per share

Ongoing strong operating cash flow is supporting further investment in growth initiatives and increased capital expenditures.

Free cash flow negative due to significant investment in new production building in Flamatt.

1 All prior year values restated to reflect the ten-for-one stock split of April 28, 2017.
Working capital ratios further improved

Working capital ratios

- Total net working capital increased by CHF 16.9m, driven by a strong year-end performance (high trade receivables balance) and a strong order backlog (rising inventory balance)

- Monthly average net working capital in % of net sales decreased to 23.2% (PY 24.0%), reflecting the ongoing working capital optimization efforts
  - Inventories increased to CHF 93.9m (PY CHF 81.5m). DIO (monthly average days inventory outstanding) decreased by 8 days to 76 days (PY 84 days)
  - Increase in trade receivables (net of prepayments by customers) to CHF 42.8m (PY CHF 27.6m). DSO (monthly average days sales outstanding) increased to 29 days (PY 24 days)
Non-current assets influenced by capital expenditure for building expansion in Flamatt

Non-current assets increased by CHF 29.3m or 23.4%

- Property, plant and equipment and intangible assets increased by CHF 30.1m
  - Capital expenditure in new building in Flamatt amounted to CHF 26.6m
  - Cash capital expenditures – excluding new building in Flamatt – as a mixture of replacement and capacity increases totaled CHF 14.9m, divestments were CHF 1.5m
  - Depreciation of non-current assets totaled CHF 8.1m; amortization: CHF 4.4m
  - Positive translation effects totaled CHF 2.6m

- Deferred tax assets decreased to CHF 7.2m (PY CHF 8.1m) mainly as a result of the US tax reform
Financial Results

Equity increased in absolute and relative terms, driven by profitability

Current liabilities increased by CHF 15.5m, mainly driven by:
- Increase in trade payables, accrued expenses and provisions

Non-current liabilities increased by CHF 1.0m, mainly due to:
- Pension liabilities (change in Swiss plans)

Equity ratio increased from 51.1% to 52.7%:
- Total comprehensive income of CHF 38.5m for 2017
  - Net income: CHF 35.5m
  - Foreign currency translation gains: CHF 3.0m
- Share-based payments of CHF 0.9m
- Distribution to shareholders of CHF 1.20 per share, totaling CHF 9.3m
Very solid net debt to EBITDA ratio at 0.1x

Financial Results

Strong increase in EBITDA allows to finance ongoing investments in growing business

As a result net debt to increased to CHF 7.4m (2016: from net cash CHF 4.4m)
**Financial Results**
